

ACTIVE FIRE PROTECTION FOR LITHIUM-ION BATTERIES

AUTOMATIC ALARM

112

EMERGENCY SERVICES are alerted

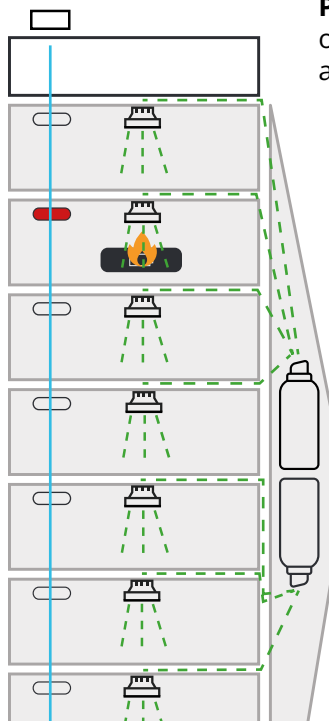

SMART SMOKE DETECTOR goes off when the **lithium-ion battery** catches fire

AEROSOL FIRE SUPPRESSION

OXYGEN IS PUSHED OUT of the unit via an automatic valve

AEROSOL DISPENSER sends aerosol mist into each locker

BUILDING REMAINS SAFE & INTACT

The fire is kept under control for at least 30 minutes

THIS ENABLES THE EMERGENCY SERVICES TO ARRIVE ON TIME they can open the locker via the emergency door
